At Blue Baker, what we do and how we do it is based on a very simple philosophy. Healthy, nutritious food should taste great and make you feel great. Period. And all without fryers, grease, MSG, trans-fats, preservatives and additives. None of that on our watch. Regardless of what’s in or trendy, wholesome, clean, real food that leaves you satisfied, smiling and free from guilt is what Blue Baker is all about. That’s why we bake in small batches and use only unbleached, unbromated flour and age-old techniques to craft our award-winning breads. The result is more nutritious and delicious breads, made from scratch with real ingredients by craft bakers who take great pride in what we do.
